Care Map - Pediatric

Care Map MS

American Academy of Pediatrics

DEDICATED TO THE HEALTH OF ALL CHILDREN®

Relationships with others

- Develop skills to connect with others to manage own affairs (eg, social outings, appointments)
- Work towards desired level of autonomy and independence

Education or employment

- Plan early for future vocation
- Consider classes online vs on campus
- Contact campus programmes for students with disabilities
- Enlist employment or vocational planning resources

Journal Article: A Transition Toolkit for Duchenne Muscular Dystrophy

Housing

- Examine where to live (family home vs elsewhere)
- Modify home for accessibility and safety
- · Use assistive technology

Activities of daily living

- Explore funding and benefits for care
- Learn to hire and train personal care attendants
- Ensure respite for family caregivers
- Consider need for guardianship or conservatorship

Transportation

- Foster independent driving with vehicle modifications
- · Modify family-owned vehicle
- Investigate accessible public transportation options

Health care

- Transition from paediatric to adult health care
- Move from family-centred to patient-centred provider interactions
- Discuss age-related changes in health-care benefits
- Assess the need for durable power of attorney for health care
